

# RES4Africa East African Renewable Energy Exhibition (RES-EXPO)

*4th-6th December 2017, Strathmore University, Nairobi*

## Showcase Exhibition

RES-EXPO showcase exhibition takes place in Strathmore University and gathers regional, national and international RE solution providers to present their business and technical products.

Dedicated to local and international RE key stakeholders and start-ups to showcase their products, services and prototypes the exhibition is the perfect environment to forge new business deals and valuable partnerships also through B2B sessions.

## Nairobi 2016 conference in numbers

- **202 Participating companies**
- **344 Participants**
- **60 B2B Meetings**

## Exhibit booths fee

RES-EXPO booths rental for the three-day exhibition will cost € 800 + VAT RES4Africa's members and partners will benefit from a discount price.

## The added value

- Network with key public and private sector renewable energy stakeholders;
- Acquire exclusive information on RE on-going and future projects as well as policies and strategies planned for East Africa;
- Recognize solutions to the challenges being faced in the region;
- Access cutting edge RE technologies from participating local and global suppliers.
